NUMBER 49.

SHIP SUBSIDY BILL.

Gen. Grosvenor, Chairman of the Committee on Merchant Marine and Fisheries, Reports.

OTHER NATIONS CARRY OUR GOODS

Of Almost a Billion Dollars Worth of Exports Only a Small Per Cent is Carried in American Ships.

For the Carrying of That Trade We Paid \$200,000,000, Which Amount Should Have Gone Into the Pockets of Americans.

Washington, Jan. 21.—In his report to the house, filed Wednesday, in favor of the bill authorizing a commission to consider the question of ship subsidy, Representative Grosvenor, chairman of the committee on merchant marine fisheries, says:

"We flatter ourselves justly that we are a leading nation in all that makes a nation great, and yet we are a subservient nation and a helpless nation in one of the great factors of national wealth and national independence. Other nations carry our products to the markets of the world."

Gen. Grosvenor says that of almost a billion dollars worth of exports to Europe during the fiscal year 1902 only one and three-quarters per cent. was carried in American vessels. Of nearly \$500,000,000 of imports during that year American ships carried only \$30,000,000 worth. He says that had it not been for the American line subsidized by postal subsidy the total of our trade with Europe carried under the American flag would have exceeded one-sixth per cent. For the carrying of that trade Gen. Grosvenor says we paid \$200,000,000, which amount he maintains should have gone into the pockets of Americans.

The minority members of the committee have designated Representative Lucking, of Michigan, to present their views. These will contain the following reasons why the bill should not pass:

"We are opposed to congress abdicate its functions in favor of any commission whatever. The history of such commissions shows that almost invariably their work has been useless and expensive and has come to naught. We are utterly opposed to ship bounties and have reason to believe that the adoption of such a policy is the real aim of the bill. We are in favor of the rehabilitation of our merchant marine by effective measures to be enacted at the present session of congress.

"We favor immediate action by this committee in the way of investigation and hearings and then the bringing in by this committee of a bill putting in force substantially the system of discriminating tonnage and import duties which was enacted by the early congresses of the United States and which resulted in the immediate and permanent upbuilding of our merchant marine. This system has the prestige of successful experience which can not be said for any other while the subsidy plan has been substantially a failure both at home and abroad. "The policy of discriminating duties was inaugurated by Jefferson and Madison and Monroe and it received the endorsement of the republican national convention of 1896, of William McKinley and of William P. Frye, now president of the senate, and may, therefore, be justly dominated non-partisan and strictly American."

Gold Corporation Bonds.
New York, Jan. 21.—Controllor Grout opened bids for \$10,000,000 3 1/2 per cent. gold corporation bonds. The total amount of the bids received was \$37,227,810 and the average price of the bonds awarded was 100.23.

Experiment With Radium.
San Francisco, Jan. 21.—A series of experiments with radium, startling in their scope, has been undertaken at the University of California. An attempt will probably be made to turn the skin of the Negro white.

Commissioner to the World's Fair.
Havana, Jan. 21.—Acting Secretary of Agriculture Diaz has appointed Jno. W. Flanagan, an American, Cuban commissioner to the St. Louis exposition. Mr. Flanagan is agent here of the Southern Pacific railroad.

Verdi's Birthplace to Be Sold.
Rome, Jan. 21.—The house in which Verdi was born, which is situated at Busseto, near Palm, is to be sold soon at public auction. The house is the property of the Marquis Pallavicino, who was once very wealthy.

Denies the Report.
Peoria, Ill., Jan. 21.—Secretary Benjamin Cartwright, of the Peoria park board, denounced the story given out that an unknown man would give \$800,000 to provide for a public park in the central portion of the city.

COUNTY OF BECKHAM.

It Is To Be Carved Out of Carter, Lewis and Elliott Counties.

Frankfort, Jan. 21.—Senate—The senate passed the bill creating the new county of Beckham, to be carved out of the counties of Carter, Lewis and Elliott. Both the democrats and republican nominees for the senate agreed by a five to three vote Wednesday afternoon to report favorably the Hedlin bill to eliminate the Negro vote by enacting the grandfather's clause. An amendment was approved providing that after the year 1910 the law should apply to both whites and blacks. The democratic joint caucus practically settled the school book fight Wednesday night by adopting all the amendments to the Cantrill bill proposed by the caucus committee of nine that has had the bill under consideration since last week. Nearly all the amendments were to correct the verbiage and remove the ambiguity from several sentences, and all are entirely acceptable to Senator Cantrill.

House—The first bill was the Bradley bill, requiring registration certificates to be exhibited at the polls—a duplicate of the Farris bill passed on Tuesday in the senate, except that it requires registration in both fifth and sixth class towns. Rogers (rep.) offered an amendment exempting fifth-class towns. Bradley defended his bill and spoke against the amendment, saying that the Rogers amendment was to offer an opportunity for importing Negroes. Rogers withdrew his amendment, after being assured that the bill did not require registration in the county. Judge Guffey (rep.) offered an amendment to require registration throughout the state. The amendment not being in proper form it was withdrawn and a motion by Guffey to recommit the bill lost. Hanna (rep.) offered amendment to provide fines and disfranchisement for 20 years for buying or selling registration certificates. The Guffey amendment was defeated. The Hanna amendment was defeated by a strict party vote. The bill was then adopted by a vote of 70 to 20.

NEW CAPITOL BUILDING.

The Kentucky House of Representatives Passes the Bill.

Frankfort, Ky., Jan. 21.—When the state capitol appropriation bill came up in the house Wednesday Barton, of Pendleton, led the debate favoring it. Black, of Knox, leader of the republican minority, spoke for the bill. He said the new capitol should be built, with a statue of Lincoln on one side and one of Jefferson Davis on the other, typifying southern unity. Barton's amendment, providing that at least four of the five commissioners must be present at a meeting when contracts are let was adopted. The bill then passed, yeas, 91; nays, 1. Thompson, of Bourbon, cast the only negative vote. The bill appropriates \$1,000,000, and makes the state board of sinking fund commissioners a board of state house commissioners. The passage of the bill in the house insures its becoming a law, and thus settles a controversy of a century's standing.

Want Senator Hanna, Too.

Frankfort, Ky., Jan. 21.—The senate Wednesday concurred in the house joint resolution inviting Senator Marcus A. Hanna, of Ohio, to address the general Assembly of Kentucky. By a previous resolution Senator Gorman, of Maryland, has been invited to address the legislature.

Valuable Colt Dead.

Paris, Ky., Jan. 21.—Clay Bros., of Coldstream farm, lost by death a fine 2-year-old colt, by Sir Dixon out of St. Veronica. This colt was considered one of the best in their stable, and they were preparing to send him east. A big price had been offered for him.

Robbing Cars.

Jackson, Ky., Jan. 21.—The Lexington & Eastern Railway Co., whose road runs from Lexington to Jackson, has been annoyed for the last two weeks by Breathitt county thieves who seem to have organized for the purpose of stealing from the cars.

Old Covington Resident Dead.

Covington, Ky., Jan. 21.—Robert Walter, 71, bookkeeper for the Montgomery Coal Co. for the past 33 years, died suddenly Wednesday night at home, 60 East Fifth street. Walter had been ailing for some weeks past with neuralgia of the heart.

A Golden Keepsake.

Lexington, Ky., Jan. 21.—Thirty-two years ago Curtis Dedman received from his father a five-dollar gold piece as a keepsake, and Wednesday the coin was introduced in evidence in the circuit court during a contested will case.

Sustained a Broken Arm.

Mt. Sterling, Ky., Jan. 21.—Dr. B. F. Thompson fell on the pavement and broke his right arm. He had just recovered from an attack of appendicitis, and serious results are feared.

PASSED THE HOUSE

The Hepburn Pure Food Bill Was Adopted on a Rising Vote 201 to 68.

THE AMENDMENT STRICKEN OUT.

Measure Fixes the Standards of Foods and Drugs as to Purity, Strength and Character.

Secretary of Agriculture Is Authorized to Employ Chemists, Inspectors, Clerks and Laborers For Enforcement of the Act.

Washington, Jan. 21.—Senate—Mr. Patterson Wednesday completed and Mr. Platt (Ct.) began a speech on the Panama canal question. Mr. Patterson declared that the president was largely responsible for the revolt in Panama, and announced his decided preference for the Nicaraguan route. Mr. Platt took this pronouncement for Nicaragua as the text for his remarks, saying it explained the mystery of the otherwise unexplainable opposition on the part of the democratic senators of the Panama treaty.

House—The house passed the Hepburn pure food bill on a rising vote, 201 to 68, its opponents being unable to secure a roll call on the bill. The amendment of inserting the word "willful" with reference to the persons who sell adulterated or misbranded goods, and which would have compelled the government to prove intent to violate the law by the vendors was stricken out on a yeas and nays vote in the house. Several attempts were made to amend the bill, but no material changes were made. The bill fixes the standards of foods and drugs as to their purity, strength and character and defines what shall be considered adulterations or misbranding of foods and drugs. It also prohibits interstate commerce, importation and exportation, of such misbranded or adulterated articles. It is proposed to enlarge the scope of the bureau of chemistry to include the bureau of foods and impose upon it the duty of performing all chemical work for the other executive departments. This bureau will be charged with the duty of inspecting food and drug products which belong to inter-state or foreign commerce. The secretary of agriculture is given authority to employ such chemists, inspectors, clerks and laborers as may be necessary for the enforcement of the act. One section of the bill provides penalties for the introduction of adulterated or misbranded foods or drugs and another section requires the secretary of agriculture to prescribe rules and regulations to govern the director of the bureau of chemistry and foods in examinations of articles required to be inspected under the law. Violations of the law shall be reported by the secretary of agriculture to the proper district attorney of the United States, who is to direct the cause, the proceedings to be prosecuted without delay.

DR. JEKYL AND MR. HYDE.

Ticket Broker By Day and Receiver of Stolen Property at Night.

Chicago, Jan. 21.—A prosperous ticket broker in a fashionable hotel by day and a general receiver of stolen property by night is the character given by the police to Charles F. Stout, who has for some time conducted a ticket broker's office in the Kaiserhof hotel. Stout was arrested on the confession of a burglar, who declares that he sold his stolen property to him, but did not receive its value. The broker was held in bonds of \$9,000.

WARNING ISSUED.

Cold Wave in the West and Storm on the West Gulf Coast.

Washington, Jan. 21.—Cold wave warnings have been issued for South and East Utah, Northern Arizona, Western Colorado, Oklahoma, Indian territory, Arkansas and for Louisiana and Texas, except on the coast and at St. Marie, and frost warnings for California and Southern Arizona. Storm warnings are displayed on the west gulf coast.

Heavy Rains in Iowa.

Keokuk, Ia., Jan. 21.—The heavy rains threaten to cause much damage in this vicinity. Reports say that all the creeks are swollen and have overflowed their banks and the wagon roads are impassable, affecting the rural mail routes.

St. Louis, Jan. 21.—A suburban line street car running at full speed struck a curve at Union boulevard and Beecher road, throwing Motorman Michael Godfrey under the wheels and killing him instantly and injuring five others.

STEAMPIPE EXPLODED.

A Large Number of Workmen Were Killed and Injured.

Johnstown, Pa., Jan. 21.—An immense steampipe directly over the engine in the boiler room of No. 2 mill of the Cambria Steel Co. exploded about 1:30 Thursday morning bringing down the whole section of roof running from the puddling mill to the finishing shed of the mill. The wood-work at once took fire from the furnaces and at this time is burning fiercely. It is known that at least two or three men are under the debris and it is not believed that these can be rescued in time to save their lives.

About 15 men have been taken out and have been either sent to the hospital or are lying on improvised cots in offices nearby. It is impossible at present to learn the extent of their injuries, but it is known that several are in a critical condition. Added to the fire and explosion, disaster, a large water pipe burst and is flooding the grounds about the scene of the accident. One man caught in the debris is in plain sight, but can not be rescued owing to the intensity of the heat. It is probable that not one of the men penned in can escape death either by drowning or fire. The accident occurred between a turn and a great many men were seated in the mill.

At 2 o'clock the number of dead was estimated at from 12 to 14 men. The injured will number 25 or more, many of whom are terribly scalded and can not live. Two bodies have been recovered. The injured are being hurried as rapidly as possible to hospitals.

TO ESTABLISH A COLONY.

Seven Thousand Acres of Land Purchased Near Mobile, Ala.

Washington, Jan. 21.—Seven thousand acres of land, situated in Washington county, Alabama, 35 miles from Mobile, on the main line of the Southern railway, has been purchased for colonization purposes. The tract will be subdivided into small farms and sold to alien farmers. The heads of 65 families already have reached the property and commenced the erection of buildings. Farms will be opened up at once. The settlers will engage in general farming, the growing of fruits and vegetables. From reports already received, the indications are that fully 1,000 colonists will settle in Washington during the current year.

THE GERMAN EXHIBIT.

An Additional Appropriation of \$50,000 Was Approved.

Berlin, Jan. 21.—The budget committee of the reichstag Wednesday approved the additional appropriation of \$50,000 for the German exhibit at the St. Louis exposition, making a total of \$875,000. The Prussian finance minister included \$40,000 more for the exhibit of Prussia at St. Louis, or a total of \$125,000, in the budget just submitted to the diet. The Prussian appropriations are largely for the educational exhibit. The imperial appropriations will generally broaden out Germany's representation.

SUIT AGAINST DOWIE.

San Francisco Insurance Agent Wants to Recover \$962.

San Francisco, Jan. 21.—Hugh Craig, insurance agent and ex-president of the chamber of commerce, appealed to the courts Wednesday to recover \$962 from John Alexander Dowie. Mr. Craig in his petition claims that 12 years ago the ruler of Zion borrowed \$2,772 from him. All of it was returned except the amount sued for, and that, it is alleged, Dowie refused to pay. Dowie had planned to sail for Sydney Thursday on the steamer Sonoma.

SMITHSON'S REMAINS.

They Arrived at New York on the Steamer Prinzess Irene.

New York, Jan. 21.—The body of John Smithson, the founder of the Smithsonian institute at Washington, who died in Genoa in 1829, arrived Wednesday night on the steamer Prinzess Irene. The body was accompanied by Prof. Alexander Graham Bell, of the Smithsonian institute, and Mrs. Bell who went to Italy for this purpose. The body will be taken to Washington on the United States dispatch boat Dolphin Thursday.

Lincoln's Birthday Celebration.

Chicago, Jan. 21.—Lincoln's birthday will be celebrated by the Marquette club by a banquet on February 12. Secretary of the Treasury Shaw, Congressman Henry S. Boutell and Congressman Robert G. Cousins, of Iowa, will be the speakers.

American Are Leaving Seoul.

Seoul, Jan. 21.—The emperor of Corea has ordered that 700 revolvers and clubs be distributed to the "Peddlars."

A DEFECTIVE WIRE.

It Caused a Destructive Blaze in the Plant of the Shelby Steel Tube Co.

LOSS OF THREE MILLION DOLLARS.

Product of the Entire Mill For the Past Six Months Destroyed Within an Hour.

The Immense Building Fell in With a Crash Which Could Be Heard Distinctly For Miles From the City.

Shelby, O., Jan. 21.—The United States steel corporation stock sustained a \$3,000,000 loss by fire Wednesday night at the plant of the Shelby Steel Tube Co. The fire started in one of the smaller rooms from a defective electric wire and spread to the larger stock room, completely destroying all of them. The product of the entire plant for the past six months was destroyed within an hour, consisting of 800,000 tons, making in all 25,000,000 feet of finished product and valued at \$3,000,000.

The fire broke out at 9 o'clock, and at 10 o'clock the immense buildings fell in with a crash, which could be heard distinctly for miles from the city. Battered and twisted, the finished product lies in a heap and is almost a total loss. Tube works officials state that a portion can be worked over, but it will require the entire capacity of the plant and will delay the mills on other orders. The stock consisted mostly of locomotive boiler flues and other government work of various kinds. The fire was confined to the stock buildings, which were built at an expense of \$100,000.

The tubing manufactured by the Shelby plant was used extensively by the government for boiler flues in United States war vessels.

The demand of the government alone is sufficient to keep a good-sized plant running continuously the year round. The United States government has been the best customer of the local plant. The plant was erected in 1890, and has made gigantic strides forward until today it covers nearly ten acres of ground.

HIGH RATE OF SPEED.

Effort to Be Made to Equal or Break the German Record.

Schnechtady, N. Y., Jan. 21.—Plans to equal, and possibly beat, the speed record of 120 miles an hour, made at Prossen, Germany, some time ago, were made Wednesday at a conference between officials and experts representing the New York Central railroad and the General Electric Co. The tests are to be made on the tracks between this city and Hoffmans. If present plans hold, the Central will thus be enabled to run trains through New York city and on its suburban lines at an unparalleled rate of speed.

HEAVY DRIFTING SNOW.

Railroad Traffic Almost Paralyzed Near Syracuse, N. Y.

Syracuse, N. Y., Jan. 21.—The east-bound train on the Delaware, Lackawanna & Western, which left here at 10 o'clock Tuesday night, became stalled in the snow at Summit and was unable to move until nearly noon Wednesday. Heavy drifting snow has paralyzed all the railroads except those on the line of the New York Central, where trains are late. The worst blockade in recent years prevails on the Rome, Watertown & Ogdensburg road.

AN ALL-DAY RAIN.

Predictions of a Flood in the Ohio Have Been Renewed.

Pittsburg, Pa., Jan. 21.—Because of the all-day rain here and at nearly all up-river points along the Allegheny and Monongahela rivers, predictions of a flood have been renewed and much apprehension is felt among river men and others with interests within the flood line.

At midnight the rain had ceased but no decided fall in temperature is predicted.

Men Thrown Out of Work.

Chicago, Jan. 21.—Nearly 1,000 men were thrown out of employment in South Chicago Wednesday night by the closing down of the Ironworks Furnace Co. plant. No notice was given the men and no time was set for reopening.

Pittsburg, Jan. 21.—The explosion of a lamp in the Hope Mission building, Second avenue, caused the death of James Bodigo, 6, fatal burning of his mother and the serious burning of his 3-year-old sister.

EX GOVERNOR BRADLEY has climbed into the band wagon. He has announced for delegate-at-large to the Republican National convention, and says he is for Roosevelt first, last and all the time. This settles it so far as the Kentucky delegation stands.

THE COST OF IT.

The work of "benevolent assimilation" continues in the Philippines, but how many ever take a thought of the cost of it all—not the cost in dollars and cents, as enormous as that has been, but the cost in lives of Uncle Sam's soldier boys! On this point the following from the New York Sun, is only one item:

A few days ago a ship from the far East steamed into New York harbor. She was a weary-looking vessel, was the United States transport Kilpatrick, for she was seventy-two days out of Manila, and had come half way round the world by way of the Suez canal. And at her mizzenmast was the national ensign at halfmast. For she was freighted with our principal imports from our island possessions. In her hold were 302 long heavy boxes; in each one of these boxes was the dead body of an American boy. Just pitiful, useless corpses, that's all. Once upon a time they were people like we are, with muscles and brains and hearts and spirits. But we have so many like that; we didn't need them at home. We sent them abroad for the purpose of benevolent assimilation. And they did their duty, these live American boys. They assimilated all they could, fever, cholera, plague, Manner bullets, famine and disease. But of course they couldn't keep right on assimilating—even a strong American boy's system has its limit of saturation. So when their work was done, they were put in those long, heavy boxes and started back to America again. We were benevolent enough to bring them back home. They were entitled to a round trip, and they got it. As the Kilpatrick steamed into New York harbor, the docks were crowded with friends to welcome them home. Their fathers and mothers and sisters and sweethearts were out in full force, for it was a big home coming—302 were arriving all together. And perhaps some of those who watched the unloading of the long, heavy boxes were unpatriotic enough to wonder if the whole Philippine archipelago were worth the price that shipload represented. Not if it were worth the money and the time and the struggle and fight and murder and heart-break of the last five years, but, poor fools, they questioned if it were worth even this cargo—the burden of the United States transport, Kilpatrick—302 dead American boys.

AN IDEAL CHAIRMAN

Suggestion of Hon. James N. Kehoe For Head of Democratic State Committees is a Popular One.

His Ability as a Leader and an Organizer Has Been Demonstrated, and He is Fair and Impartial.

A dispatch from Frankfort to the Cincinnati Enquirer and republished in the BULLETIN Wednesday states that the friends of Hon. James N. Kehoe are urging him to make the race for Chairman of the Democratic State Central and Executive Committees. Only those who have an intimate acquaintance with the political sagacity of Mr. Kehoe can fully appreciate his fitness for this place.

In this county as Chairman of the County Executive Committee, and as a member of the State Executive Committee from this district, he has demonstrated that his ability for party organization is of the highest quality.

Mr. Kehoe not only possesses the ability as an organizer which this place requires, but his fairness and impartiality will insure just treatment to all parties who come before him for the adjustment of disputes relative to the party organization. It is doubtless the unusual success which has attended Mr. Kehoe's political ventures which is attracting the attention of the Democrats throughout the State to him, as a suitable person for the State Chairmanship. Redeeming the Ninth Congressional district when it seemed hopelessly Republican, and keeping up the fight for organization until the majority given Governor Beckham in the district was over 1,000, shows Mr. Kehoe's unquestionable talent for party management, while the recognition accorded his ability in the House of Representatives shows that he possesses character and capacity which will insure party success and clean methods. The Congressional delegation from Kentucky has just paid a tribute to his political ability by selecting him to represent the State on the National Congressional Campaign Committee. But it is not only such recognition as comes from party work which Mr. Kehoe is securing. Speaker Cannon did him the honor to place him upon the Committee on Foreign Affairs, which is one of the most prominent committees of the House.

Let the Democrats of Kentucky put Mr. Kehoe in charge of the party machinery in the coming Presidential campaign, and he will give the party the best organization it has ever had. We all know him in this end of the State, and he will do just what we say he will.

A Card.

It has been announced that owing to disability I would resign my position as night watchman. This is not correct. It is true that I've had the misfortune to be sick for a time; but that is well-nigh past, and during the period I promptly supplied a good and efficient substitute who has seen to it that the interests of my employers have not suffered. It is my expectation and purpose to resume my duties in the early future.

The remains of Peter Jackson, colored, were brought here Wednesday from Cincinnati by Undertakers Porter & Cummings, and the funeral will take place Friday at 2 p. m. Jackson was thirty-six years old. He died Tuesday night in the Cincinnati Hospital, of pneumonia, complicated with other troubles. His mother lives on Fifth street, this city.

Rev. T. S. Buckingham has been engaged to preach two Sundays a month at the Christian Church and to do pastoral work during the absence of the minister Rev. R. E. Moss on his Oriental trip. On the remaining Sundays each month the pulpit will be filled by President Jenkins, Prof. McGarvey and Prof. Fairhurst of Kentucky University and Bible College and by Rev. A. McLean, Rev. R. M. Giddens, Rev. J. S. Sweeney and other well known ministers. Rev. Mr. Buckingham was formerly minister of the church at Toledo, O., but of late years has preached at a number of churches in this part of Kentucky.

A question has recently been raised as to the exact date of the Harrington-Taylor tragedy on the river in front of this city some years ago. The BULLETIN's files show that it was enacted on the afternoon of Tuesday, June 6th, 1876 James Taylor was Captain of the steamer Katie Dickson, and was wanted on some charge by the U. S. authorities at Cincinnati. He was pursued by Deputy Marshal A. J. Harrington, on the towboat Champion, and was overtaken at this point. Captain Taylor ran his boat to the Ohio shore, and as the officer attempted to board the Dickson, he was shot and killed by Captain Taylor. The latter was an instant later shot and killed by some of the deputies under Harrington.

HIS "SWEET TOOTH"

Was Abnormally Developed, and a Pound of Sugar Daily Came Near Causing Ripley Farmer's Death.

RIPLEY, O., January 18.—Chambers Drake, a farmer living near here, has just recovered from a remarkable ailment, and it is solely to the positive exercise of a strong will power that he attributes his restoration to health. From youth up he was always fond of candies and sweetmeats, and after his marriage the habit of eating everything sweet so grew on him that it became almost a mania. He would have cake and rich creams at every meal, and says that, while in town, it became impossible for him to pass a bakery or confectionery without stopping in to purchase a supply of the toothsome stock. Finally he resorted to sugar, and for years never a day passed that he did not consume a pound or more of the raw article.

Then his health began to fail. He became emaciated and weak, and his physicians informed him that he would die if he did not immediately discontinue the use of sugar and its products. He stopped off short and began using plentifully all kinds of sour and tart foods, and, though it caused torture for weeks, he gamely stuck to the ordeal and is again sound and strong.

Chamois LUNGS!

That may sound queer but that is what they are. One may ask how they could live if they had chamois lungs. It is a wonder to us how some people live without wearing one. It is essential to good health to wear one of our

Chamois Lung Protectors!

Being made of one piece of finest chamois and one piece of best felt they will wear longer than those made of cheap chamois and red flannel.

Ours are guaranteed to wear longer and give better satisfaction than any other made at the same price.

MERZ BROS

DIED WEDNESDAY.

Father of Messrs. W. T. and Philip Cummins Passed Away at His Home Near Carlisle.

Messrs. W. T. and Philip Cummins received the sad news Wednesday of the death of their father, Mr. Philip Cummins, at his home near Carlisle. He had been ill about ten days as a result of a general breaking down from the infirmities of age.

Deceased was seventy-eight years of age, and leaves his wife and nine children,—seven sons and two daughters,—two of the sons being the well known grocers, corner Third and Limestone, this city, whose many friends sympathize with them in their loss. He was one of Nicholas County's successful farmers, as well as one of her most highly esteemed citizens.

The funeral will take place Friday at 9 a. m. at Carlisle Catholic Church, the interment following in the cemetery at that place.

GORGES GONE.

Ice Moved Out Last Night—No Damage at This Point.

The warm weather and rain the last few days softened the ice in the Ohio and the heavy gorges broke early this morning, and moved out. No damage was done at this point.

The gorges from above have been passing since daylight, and the indications are that navigation will soon be resumed, unless it should again turn very cold.

Wills Musical Comedy Company.

Those who saw the Wills Musical Comedy Company at the Opera House Monday night were thoroughly convinced that it is the best attraction ever seen in Lexington at popular prices. The large audience was delighted with the performance and was kept in a continuous uproar. "Sweet Sixteen" was the comedy presented, with plenty of music and fun, elegant costumes and novel effects. The company is a good one and some very clever work is done by John B. Wills, who heads the cast. The unique hit of the performance was made by Great Richards, the male soubrette.—Lexington Leader, Jan. 12th.

At the opera house, three nights, starting Monday, January 25th, with Wednesday matinee. Seats on sale Saturday at Ray's. Popular prices.

Oscar Johnson, of Bourbon, sold Leer Bros., 13,200 pounds of tobacco, which was raised on six acres of measured land, at 9 cents. The funeral of the late Frank Workman will take place Friday at 10 a. m. at his home on the Second street extension. He died suddenly Wednesday morning, of heart failure, leaving a wife and two children. He had been in feeble health some time, but was about his work as usual the day before his death.

The Louisville and Nashville Railroad Company has issued the following comparative statement. Estimated gross earnings: For second week of January, 1904, \$709,485; corresponding week last year, \$659,575. Increase, \$49,910. July 1 to latest date this year, \$20,167,745; corresponding period last year, \$18,778,490. Increase, \$1,279,255.

SERIOUSLY INJURED.

Harry Hoffmeier, a C. and O. Brakeman, Caught Between Cars and Badly Hurt.

Harry Hoffmeier, a brakeman on the C. and O.'s local freight train No. 65, was seriously injured about 7 o'clock this morning.

The train was being made up for its run to Cincinnati, and as Hoffmeier started to couple some of the cars he was caught between them and badly hurt. His hip was crushed, and there was a deep cut in the groin.

The unfortunate man was carried into the baggage room at the depot, where the necessary medical aid was rendered him by Dr. Reed. Later he was removed to the hospital at Huntington.

Hoffmeier is thirty-five years old and lives at Covington.

Miss Lucy Wilson, one of the city's most worthy and estimable young ladies, has been nominated as Mason County's candidate for the Cincinnati Commercial Tribune's free trip to the World's Fair. If no other young lady in Mason County be nominated (and no coupons can be sent in for any who has not been nominated by four well-known and responsible citizens), then Miss Wilson's trip is assured. On the other hand, if another be nominated, then it will be a question of who receives the most votes. The voting is done on blank coupons taken from the Commercial Tribune. A ballot box will be placed at J. T. Kackley's store in a few days.

Mr. Murray Hubbard, former Secretary of the Kentucky Railroad Commission, and an aspirant for Assistant Secretary of State, which he thought he had "clinched" only to be disappointed at the last minute, has landed something good apart from politics. He is to be connected with the law department of the Cincinnati Southern Railway Company, with headquarters at Covington. Says the Louisville Times: "Mr. Hubbard practiced law at Hodgenville before he got into official life as Secretary to Congressman David H. Smith, and since then, until his experience disgusted him with it, politics claimed him. Attractive in his personality he has many friends to congratulate him on his retirement from the vexatious political game to the happier walks of private life."

OUR ANNUAL JANUARY INVOICE

And mid-winter store cleaning is at an end. Never has the old house had such a thorough overhauling before. Every nook and cranny within these walls mark the progress of brush, broom and pail; each floor pays tribute to

fresh resolves and the new year just begun. Old stocks have been replenished and car-loads of new goods added in anticipation of the business activity that will come with an early Spring.

Soon our farmer friends will

begin to think of breaking ground. We want to sell them Plows this year, being in a better position than ever to satisfy on this point.

Immense purchases of wire goods and Farm Tools direct from the manufacturers enable us to

compete successfully with jobbers in the large cities.

In conclusion, if it is anything in Hardware, remember we are now in better position than ever before to supply your every want.

FREIGHT TRAINS COLLIDE.

Ten Cars of Coal, Coke and Beef Destroyed By Fire.

Altoona, Pa., Jan. 21.—An east-bound freight train early Thursday morning collided head-on with a west-bound freight at the Horseshoe curve on the Pennsylvania railroad and as a result two engines, a cab and 11 cars were wrecked. The wreckage at once took fire and burned fiercely. A hurry call was sent to this city and a fire engine of the city department has gone to the scene. Before they could get the fire under control ten cars of coal, coke and beef were destroyed. The trainmen all escaped injury.

Death of Prof. von Holst.

PANAMA CONSTITUTION.

A Draft of the Document Has Been Made.

Panama, Jan. 21.—The constitutional convention met Wednesday and approved on the first debate a draft of a constitution which contains the following principal points:

The abolition of business monopolies in the republic; the infliction of the death penalty for political crimes; the abolition of the army and the establishment of an efficient police force; the fact that the majority of isthmians are of the Roman Catholic faith is recognized, but church and state are separated; all citizens with the exception of members of any military body which may be established shall have the right to vote; the press shall be free; the president's term of office shall be four years; there are to be two sub-vic presidents, one from the liberal and one from the conservative party, and they shall serve for two years; the judiciary is to be elected by congress.

That part of the draft which refers to territorial boundaries delimits the canal zone as specified in the Hay-Bunau-Varilla treaty and this is believed indirectly to approve the treaty.

It has been agreed among the members of the convention to approve a bill ratifying all the acts of the provisional government; this will do away with the necessity of a separate bill proposing the ratification by the convention of the act whereby the junta ratified the Hay-Bunau Varilla treaty.
